Winc serves **1,173** Industrial businesses around Australia.

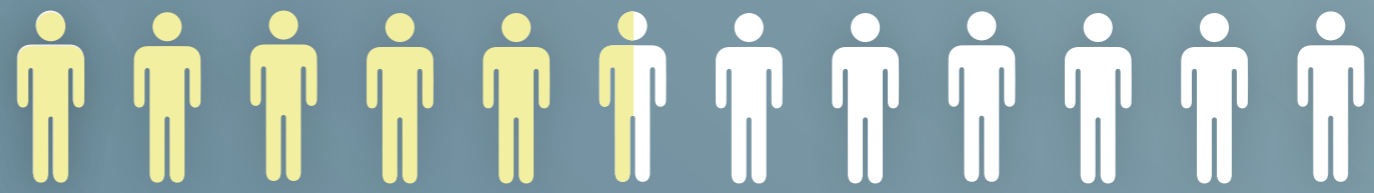

Winc has **26** Account Managers specialising in **Facilities and Blue-collar** industries

## How COVID-19 is impacting workers all over Australia

We surveyed over 1,000 employees around Australia across multiple industries including **Education | Construction | Professional Services | Healthcare | Government** to find out how COVID-19 has impacted the way they work.

**55%** of employees we surveyed **planned to work from home.**

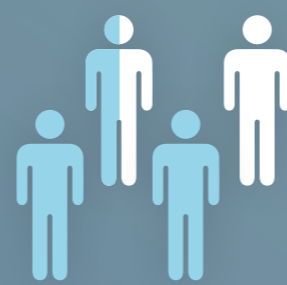

Of these only:

**1 in 3 (33%)**

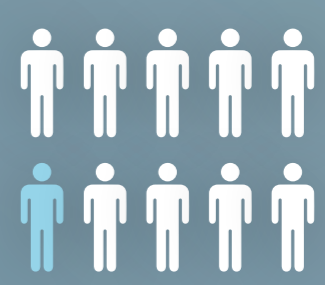

were fully prepared to work from home.

Just over half (**55%**) were only somewhat prepared.

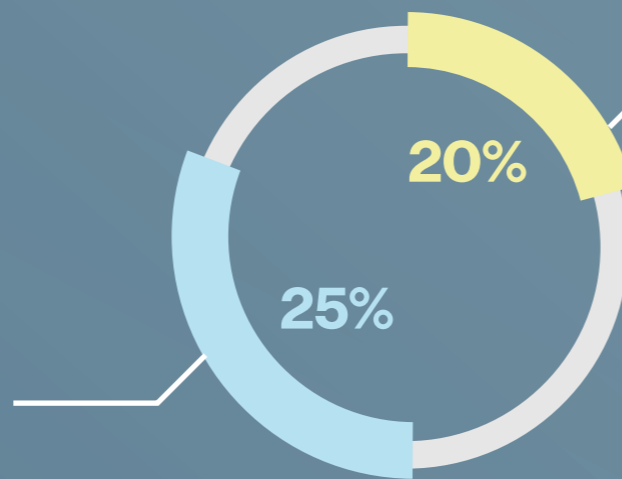

Approximately **1 in 10 (12%)** were not prepared at all.

### In conclusion, we found:

Only **25%** of those surveyed said they would continue to work on-site, leaving these employees at risk of coming into contact with the virus.

Another **20%** said they were unable to work from home, highlighting the absolute necessity for stronger contingency plans in times of crisis.

Due to the nature of work for Industrial corporations, many employees are **unable to work remotely** and continue to perform their duties on-site.

## Winc's extensive range of products can help safeguard on-site workers during this unprecedented time.
